#### 1 Introduction

elcome to Conwy County Borough Council's Summary Annual Report. The aim of this report is to give a brief overview of what the Council has achieved in the last financial year (1st April 2016 to 31st March 2017). It is essential to look back on the Council's performance and make sure that the services provided are making a difference. This is particularly important given the challenging goal of millions of pounds of efficiencies to be delivered year on year.

We have written a more detailed report which you can read if you want further details about our performance. The detailed report is called the Annual Report 2016 –2017. A copy of the Annual Report and all performance measures can be obtained on our website www.conwy.gov.uk/accountability.

Although the Corporate Plan covers a five year period, each year we review the priorities to make sure they are still relevant to communities. These priorities are reviewed in partnership with the public. The Corporate Plan 2012 – 2017 has now finished. During the summer of 2016 we worked with local communities to develop ideas for the new Corporate Plan for 2017 to 2022. We did this through 'The County Conversation' to gain views on what matters to people in their local area. This new plan embraces the Well-being of Future Generations (Wales) Act 2015 which came into force on 1st April 2016 (www.thewaleswewant.co.uk). We will report on the progress of the Corporate Plan every year.

The Corporate Plan 2017-2022 is not a 'wish list' however; rather it serves to focus and prioritise the most important actions communities think we need to focus on. It includes 'get involved' sections with ideas on what communities can do to help themselves.

The County conversation is just that – an ongoing conversation, so you can take part at any time to share your views and ideas about the County or your local area.

We hope that you will find this summary report an informative and balanced overview of some of the achievements we made in the last year. We have also noted areas we need to improve.

#### 3.3 Where we need to improve/ develop

Whether we are really making a difference to the community and reflecting not only what has gone well, but where we still need to improve or continue to develop.

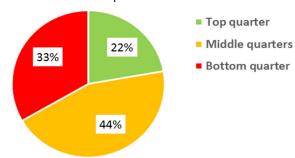

Therefore we will be progressing work in the following areas:

- Improve Educational attainment
- Raise awareness that safeguarding is everyone's business
- Support people who are at risk of becoming homeless
- Increase the supply of appropriate accommodation to meet people's lifestyles
- Review service delivery to address the financial deficit.
- Continue to monitor the impact of Brexit
- Continue to develop joint working and relationships with health colleagues
- Promote the benefits of exercise for all ages
- Maximise the use of technology

#### 4 How do we compare?

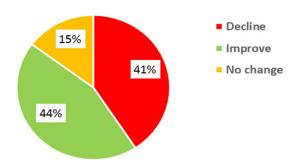

This section provides an overview of our performance against these national measures.

#### 7.1 How do we compare to the rest of Wales?

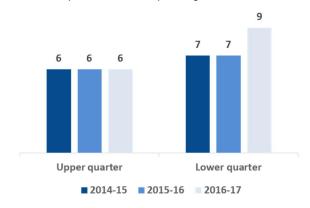

Two thirds of our national measures place our performance in the top or middle quarter of local authority performance in Wales. We are working to improve the indicators in the bottom quarter performance for Wales and action plans are in place.

#### 7.2 Is our performance improving?

The pie chart on the left shows how our performance for these measures compares to the previous year. 44% of the measures showed an improvement, 15% showed no change in performance and 41% showed a decline in performance. Again, we are working to improve the indicators showing decline.

#### 7.3 Is our performance improving?

The bar chart on the left shows how our position compared to the rest of Wales has changed over time. The number of indicators in the top quarter has remained constant for the last three years, however the number in the bottom quarter has increased from six to nine indicators.

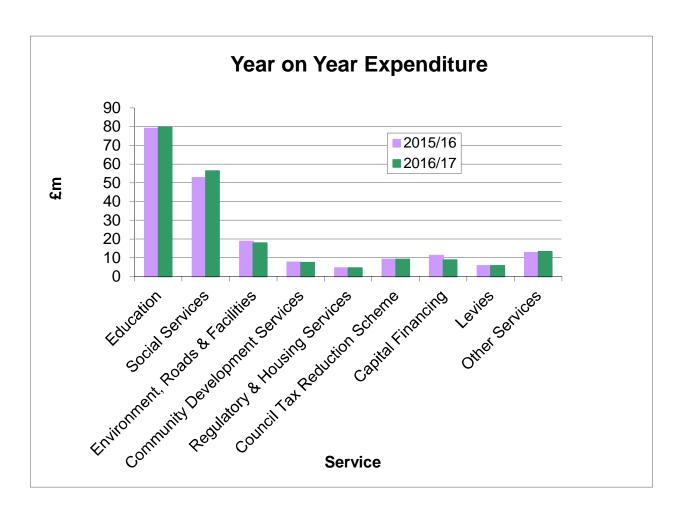

#### **5 Financial Summary**

As a public accountable body, Conwy County Borough Council must provide value for money and charged the seventh lowest Council Tax at Band D in Wales for 2016/2017. Each year the Welsh Government provides Local Authorities with a revenue grant Settlement which finances a large proportion of the revenue budget. For 2016/2017 the Settlement was very challenging and included a real term cut to funding as a direct result of the economic situation, but with protection built in for Schools budgets. This resulted in our forecasted expenditure exceeding the available budget and therefore £8.873m of budget reductions were required to balance the budget. The budget reductions were achieved by a number of initiatives spread across all our services, the introduction of new preventative initiatives in Social Services, additional income generation and a number of service re-modelling exercises which achieved staff savings.

The table below shows how we spent our budget in 2016/2017 and where the money (income) came from
