

Conwy Primary Schools Modernisation

July '17

Ysgol Nant y Groes

Works draw to a close at Ysgol Nant y Groes over the Summer period.

The building work undertaken by K&C Construction at the Ysgol Nant y Groes school, which has included a new single storey glazed link building between the existing two buildings is nearing completion.

The project which saw the amalgamation of Ysgol Pendorlan and Ysgol Glan y Mor also included the remodelling and refurbishment works to the existing school buildings including construction of a new platform lift and lift shaft, alterations and extensions to all internal and external services including boiler replacement and alterations to hard & soft landscaped areas of the playground and school frontage.

The project has allowed investment in IT kit, Playground equipment, and has seen a new 3G MUGA (Multi-Use Games Area) pitch installed on-site (see below pictures).

Additional work will be undertaken over the summer holidays to renovate the roof on the junior site, and is expected to be completed in the Autumn term.
