

Conwy Primary Schools Modernisation

Caerhun & Trefriw New Area School

July 2018

WORK BEGINS ON THE ROOF OF THE NEW CAERHUN & TREFRIW AREA SCHOOL

Work has begun on installing the roof felt and battens on certain zones of the new Caerhun & Trefriw area school this month. This same zone is now almost substantially watertight with the floor insulation, screed and underfloor heating underway, reports K&C Construction. Over the next 4 weeks the 1st M&E fix is scheduled to begin including lightning protection and brackets for the PV panels.

K&C Construction have also visited Ysgol Dolgarrog & Ysgol Tal y Bont pupils to explain and discuss the potential dangers of a construction site. In addition the contractor has also launched a poster competition for all pupils to enter, which will be judged and prizes awarded.

Looking forward, the children, teachers, parents and community have been asked to provide their ideas for the new school name which have been received by the TGB who are currently reviewing the suggestions.

To view monthly construction progress images of the works at the Caerhun and Trefriw new area school including newsletters and statutory documents, please visit:
