

21st Century Schools Engagement results

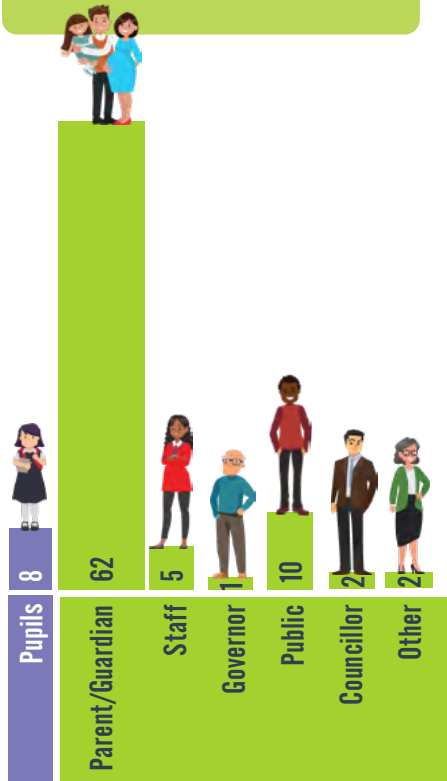

Llanddulas

Do you think building improvement is required?

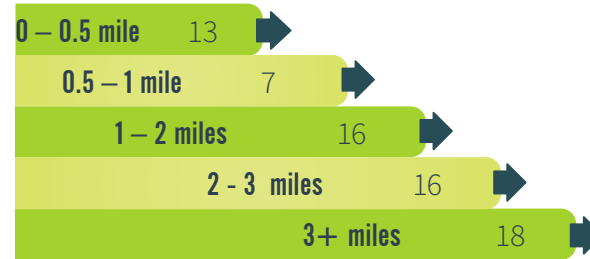

What school are you linked with?

Ysgol Llanddulas	75
Ysgol Bryn Elian	13
Other School	1

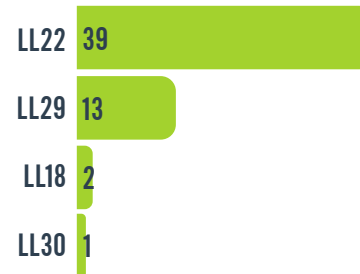

Who took part?

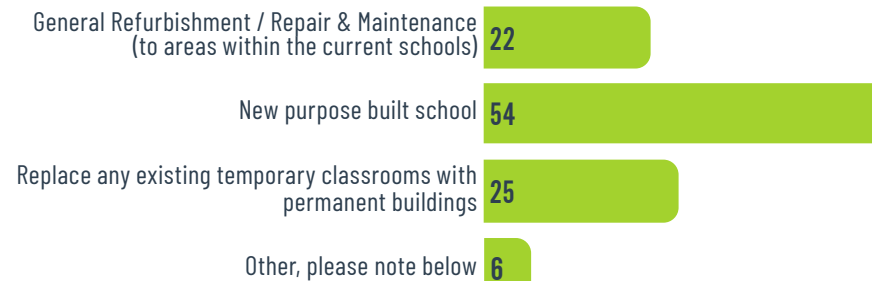

How far away from the current school sites would you be willing to travel to any new school?

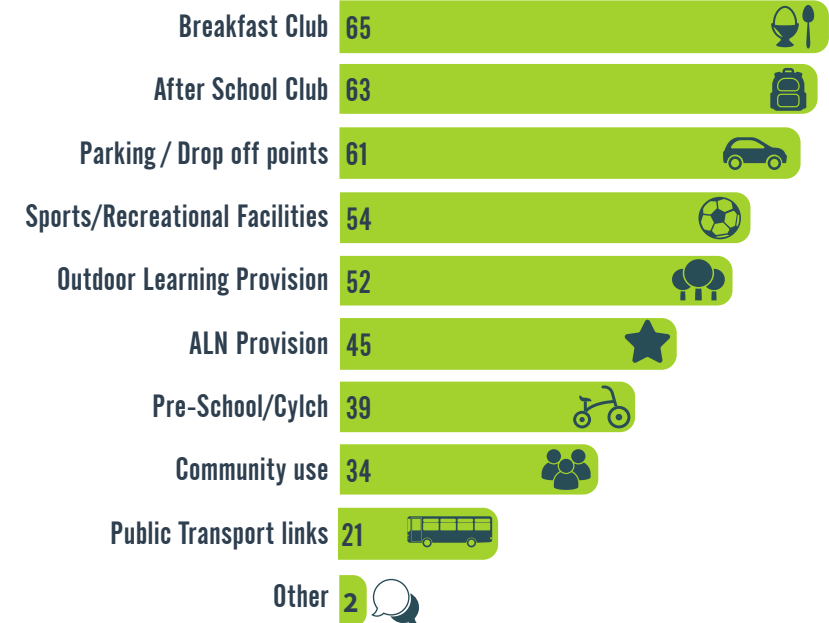

Postcode of respondents

What would you like to see?

What 'additional' services are important to you in a school?

Do you think that building improvement is required at your current school?

Some responses:

More ICT more sports equipment longer after school club

More space to thrive, bigger rooms, outdoor experiences, safe environment, outdoor facilities promoting positive play and learning.

There is a great plot of land across from the school that would be ideal for building a bigger school. The current school is so small and has inadequate space to house essentials e.g computer room. The parking situation at present is dangerous, the new building would create more space to park.

This is a great school. Just need some modern facilities

Both children have really positive feedback about their experiences at Llanddulas - there is still a little to improve on. More space/modernisation is the main area I think needs addressing.

When improvements in schools are carried out, accessibility for children with physical needs also need to be addressed within Conwy borough Council as the schools are limited who addresses these needs. Schools should be inclusive for all abilities as each child is individual, ranging from teaching through to environment.

Such a wonderful school, the only issue is parking.

Would be wonderful for a new school to be built but would be just as important to keep the outdoor space the children currently have with the field.

The staff at Llanddulas have worked hard to provide a fantastic outdoor area, this will need to be retained/rebuilt. parking is a huge issue at the school,

this should be considered also. I would be very happy to see an ECO school being built.

Great to have a new school with lots of green space for the community /children/ staff to enjoy. No houses on current school site!!

I like having a school within the village. However, the village is growing and sometimes I feel we could do with it being a little larger. I like the fact that with living in the village and having a local school it has helped my children gain independence. I find it handy so that we are able to walk to school rather than rely on transport.

I think that we would benefit from making a way out at the other end of the road so that school traffic won't need to turn around.

outdoor space is a must have, community area, gardens and playing areas.

Ysgol Llanddulas is a fantastic school but I feel new build would provide more classrooms so years don't have to be mixed and also more room for admissions which will be needed once the new properties are built in the area

Ideally the new school should be built on the existing site rather than building on the school field - if an innovative approach were taken it must be possible to complete in the summer holidays. Prefab build

I believe the school delivers excellent service given the facilities currently available. However, a new school with facilities suitable for the new educational demands would enable an excellent team of staff maximise their potential and greatly benefit the community.

I feel a new school would improve the learning for the children allowing them to grow to their full potential by having all the facilities available to them.

I think a new school would benefit the children not having outside building for classrooms. Everything in

one building would be good. I think this would be good for the teachers and will thrive with a new better school.

Ysgol Llanddulas is a fabulous school, treasured by residents in surrounding villages. The building need investments that reflects that of the staff.

Outdoor space is good. Lots of nature.

1 extra storeroom 1 extra art room

Forest school/outdoor provision is a particular strength and would like to see this kept or expanded on.

If expanding current site how are you going to manage the traffic on Pencoed Road which is already an accident waiting to happen before a further 20 houses are being built. Greater thought needs to be done on how you engage the community as many residents are unaware of this session.

The school is obviously an important aspect of the local community and every effort should be made to keep it so.

Ideally and American style school bus service for the school would help the parking issues. A better play area with slides etc to enjoy would be beneficial. A new larger school is the way forward, this site is small and overcrowded.

We do really need a room for community meetings - there is nothing available in village at present.

Safe parking outdoor and drop off parking points that don't inconvenience local residents

As a parent who works in another school that the nursery class shares facilities with the onsite playgroup, I feel that it would be beneficial for there to be a separate space or room for each

I would not wish to see the school playing field used to build a purpose-built school as this outdoor green space is a big part of the Llanddulas community and a rare space in our village.

Llanddulas Pupil Comments:

- Better Parking/drop off areas. Better Outside Sports Equipment.
 - Gardening Education, featuring a Veg patch. Cooking Classes.
 - A theatre under shelter. Astro Pitch – bigger play area.
 - Swimming Pool so we don't have to travel.
 - I think we could have a better school drop off area so we can stay safe (sometimes people go over the speed limit).
 - I want the toilets to be more clean, hygienic, and fix the toilets.
 - Cooking Club.
 - More Forest School Equipment.
 - Astro turf Pitch.
 - Cooking Class.
 - A Vegetable patch – end of the year we could eat them.
 - More places to get water from.
 - We could have a bigger school Hall.
 - An IT room.
 - A tree house.
 - Make the classrooms really big.
 - A tree house and soft play – a gaming club would be good.
 - Have a zebra crossing outside school.
 - Have a Canopy Outside.
 - Places to eat outside
 - Playground games painted on the yard.
 - Solar Panels, wifi outside, natural grass, automatic lights.
 - We could have a green house.
- Library, relaxation room, craft area, community club, automatic doors.
 - We can open the library to the community to borrow books so we can save energy.
 - Eco Friendly School.
 - More storage to keep bags and coats so we don't trip over.
 - Climbing wall in the hall.
 - A bike/scooter storage.
 - Lots of trees and grass.
 - Eco Roof.
 - A minibus that comes to houses to take them to school to save parents driving them.
 - Eco friendly solar.
 - Language Room, IT room, Mac books.
 - We could have a room so when we're angry we can go there to calm down.
 - Outdoor shelter for lunch.
 - Ysgol Llanddulas is already a great school.

Thank you to everyone for taking part and adding to this process.
