

# Conwy Replacement Local Development Plan

## Instructions for making comments on the consultation on-line form.

You can view and comment on the Preferred Strategy and Candidate Sites by going to this website:

[www.conwy.gov.uk/spps/consultations](http://www.conwy.gov.uk/spps/consultations)

In the grey box, click on either **'Preferred Strategy'** or **'Candidate Site Register'**.

The screenshot shows a web page with a grey header containing the text: "Please note: You only need to register / login if you wish to make representations." Below this is a registration and login form. On the left, under "New User", it says: "If you haven't got an account you can [register now](#)." On the right, under "Existing User", there are input fields for "Email address" and "Password", followed by a "Login" button. Below the login fields, it says: "If you have forgotten your password you can [request a new password](#)." At the bottom of the form area, there is a link to the "Cookie use policy". Below the form is a navigation bar with "LDP Home | Search Representations". Underneath is a section titled "Current Documents Open to public consultation" which lists "Replacement Local Development Plan (Consultation ends: 20/09/2019 11:00 PM)" with two links: "Candidate Site Register" and "Preferred Strategy". At the very bottom, there is a yellow warning box with an exclamation mark icon and the text: "Need help? [Is this your first time using the system?](#)"

You don't need to register to view the Preferred Strategy or Candidate Sites, but you will need to register if you want to comment.

To register, follow the New User Registration instructions.

The screenshot shows a "New user registration" form. It starts with the heading "New user registration" and the instruction "Choose the option which best describes you:". There are two radio button options: "I am registering as a private individual" (which is selected) and "I am registering on behalf of an organisation or company". Below these is the heading "Agents" followed by two radio button options: "I am an individual acting as an agent" and "I am registering on behalf of an organisation which acts as an agent". At the bottom right of the form is a "Continue" button.

## Preferred Strategy

When you click on the Preferred Strategy document the index of the document appears as show below:

### Preferred Strategy

 Having trouble using the system? Visit our [help page](#) or [contact us](#) directly.

- [Executive Summary](#)
- [Overarching Strategic Approach](#)
- [Sustainable Placemaking in Conwy](#)
  - [3.1 Introduction](#)
  - [3.2 Sustainable Placemaking](#)
    - \* [Strategic Policy SP/1: Sustainable Placemaking Principles](#)
  - [3.3 Levels of Housing Growth](#)
    - \* [Strategic Policy SP/2: Levels of Housing Growth](#)
  - [3.4 Levels of Jobs Growth](#)
    - \* [Strategic Policy SP/3: Levels of Employment Growth](#)

Click on a paragraph number or policy title to take you straight to that part of the document as shown below. Policies are shown in a blue box.

### Levels of Jobs Growth

-   3.4.1 Strategic Objective 1 (SO1)
-   Strategic Policy SP/3 Levels of Employment Growth  
Employment requirement provision is made for approximately 1,800 new jobs in the Plan Period (inclusive of contingency) to encourage a more balanced age structure, reduction in out-commuting, safeguard community identity and contribute positively to the North Wales Growth Deal. Provision is made within the Plan having considered completions, commitments and new allocations over the Plan Period.
-   3.4.2 Conwy's has an aging population and the younger population is declining at the detriment to creating sustainable places and safeguarding community identity. It is crucial that the RLDP seeks to contribute to a more balanced age structure, seeks to retain and encourage the younger population to return to the area and that out-commuting levels are reduced. Together with protecting and enhancing the social, environmental and cultural assets it provides for a strategy

To make a comment on any of the sections or policies click on the green pencil next to the part you want to comment on. If you have not already registered, you will be asked to register before you can make comments.

## Sustainable Placemaking

  3.2.1

You are about to comment on the above paragraph or heading.

**Important Information**  
The information collected will be processed in accordance with the Data Protection Act 2016. Copies of representations will be made available for public inspection, and cannot be treated as confidential. They will also be available to view on the Council's website. By clicking on the submit button below you are agreeing to these conditions.

Once you have submitted your representation an email will be sent to you confirming your submission and providing you with a copy of the text you have entered.

Please specify whether you are supporting or objecting to the plan.

Support/ Object:

Please enter the full text of your representation below.  
Please try to be clear and concise and relevant to the paragraph or policy you have selected.  
If your representation is more than 100 words, you will be asked to provide a summary.

Representation Text:

  
  

If anyone has added comments to a particular section, the magnifying glass will be active as shown below. Clicking on the magnifying glass will show you the comments. You do not need to be registered to view the comments made.

  5.6.2 Green infrastructure is the network of natural and semi-natural features, green spaces, rivers and lakes that intersperse and connect places. Component elements of green infrastructure can function at different scales. At the landscape scale green infrastructure can comprise entire ecosystems such as wetlands, waterways and mountain ranges. At a local scale, it might comprise parks, fields, public rights of way, allotments, cemeteries and gardens. At smaller scales, individual urban interventions such as street trees, hedgerows, roadside verges, and green roofs/walls can all contribute to green infrastructure networks.

  5.6.3 The Environment (Wales) Act 2016, provides a context for the delivery of multi-functional green infrastructure. Its provision can make a significant contribution to the sustainable management of natural resources, and in particular to maintaining and enhancing biodiversity and the resilience of ecosystems in terms of the diversity between and within ecosystems and the extent, condition and connectivity of ecosystems and their ability to adapt. This means that the development of green infrastructure is an important way for local authorities to deliver their Section 6 duty.
