Appendix 1 - Site Schedules

Appendix 2 - Past Completions Data

Appendix 3 - Previous Land Supply Data

1.0 SUMMARY

1.1 This is the Conwy County Borough Council Joint Housing Land Availability Study (JHLAS) for 2013 which presents the housing land supply for the area at the base date of 1st April 2013. It replaces the report for the previous base date of 1st April 2012.

1.2 The JHLAS has been prepared in accordance with the requirements of *Planning Policy Wales*, Technical Advice Note 1 (TAN 1) and the Guidance Note on the JHLAS process (September 2012). Please refer to these documents for details of the requirements for the maintenance of a five year housing land supply in each Local Planning Authority area and the process for undertaking the JHLASs.

TAN1: <http://tinyurl.com/d9m2gy8>

Guidance note (September 2012): <http://tinyurl.com/clhxagr>

1.3 Section 2 sets out details of the housing land supply and how it has been calculated. It shows that based on the past building rates method set out in TAN 1 Conwy County Borough Council has **4.1 years** housing land supply.

Involvement

1.4 The housing land supply has been assessed in consultation with:

- Home Builders Federation
- Anwyl Construction
- Natural Resources Wales
- Dwr Cymru/Welsh Water
- North Wales Housing Association
- Cymdeithas Tai Clwyd
- Pennaf

Report production

1.5 Conwy County Borough Council published the draft site schedules and site proformas for consultation on 27th June 2013 and comments were received from the HBF and Anwyl Construction. A Statement of Common Ground (SoCG) was subsequently prepared and, following consultation with the Study Group, was submitted to the Welsh Government on 3rd October, 2013.

1.6 All matters were agreed following the consultation and set out in the SoCG.

1.7 This JHLAS report has been prepared on the basis of the SoCG.

2.0 HOUSING LAND SUPPLY

- 2.1 The five year land supply comprises sites with planning permission (outline or full) and sites allocated for housing in adopted development plans, categorised as prescribed in TAN 1.
- 2.2 The land supply has been calculated using the past building rates methodology because as at 1 April 2013 there was no up-to-date adopted development plan covering the Conwy County Borough Council area. In accordance with the revised guidance published by the Welsh Government in September 2012 a 10 year period has been used, rather than the 5 year period advised in TAN 1.

Table 1 – Identified Housing Land Supply

Housing Land Supply 1/4/2013 – 31/3/2018 - Large Sites								
	Proposed homes	5 Year Land Supply (TAN 1 categories)				Beyond 5 Years		Homes completed since last study
		Under construction	1	2	2*	3 (i)	3 (ii)	
Total	1981	343	39	461	0	1086	52	137

- 2.3 Five year land supply breakdown (i.e. Categories 1, 2, 2* and Under construction):

Private	636
Public	0
Housing Association	207
Total	843

- 2.4 **Small Site Supply** – The contribution from small sites of less than 10 dwellings is based on the completions for the last five years.

Table 2 – Small Site Completions for previous 5 years

2008-2009	2009-2010	2010-2011	2011-2012	2012-2013	Total 2008-2013
162	86	73	101	50	472

- 2.4 The overall **total 5 year land supply** (large + small sites) is **1315**

Table 3 – 5 Year Land Supply Calculation (Past Building Rates Method)

A	Total Previous 10 Year Completions (1/4/2003 – 31/3/2013)	3208
B	Average Annual Completions	321
C	Total 5 Year Land Supply	1315
D	Land Supply in Years (C / B)	4.1

3.0 COMMENTARY

- 3.1 Table 3 indicates that based on the average build rate over the previous 10 years, the Council has a 4.1 years land supply. It is interesting to note however that had the comparison used past build rates over the previous 5 years, as advised in TAN 1, the Council's land supply would increase to 5.5 years. This clearly shows the impact of the more recent lower completion rates on the land supply.
- 3.2 Having regard to the lack of a five year supply based on the 10yr build rate comparison, and in line with the requirement in TAN 1 for LPAs to ensure a sufficient supply of land is available for housing, Conwy County Borough Council provide the following comments which demonstrate progress towards achieving a five year housing land supply.
- 3.3 The Conwy LDP was formally adopted by the Council on 24th October 2013. The LDP contains new housing allocations (not featuring in this study) which are capable of accommodating an estimated additional 2245 units over the Plan period. A further 522 units are included as allocations on 'contingency' sites, to be released should future JHLA studies following LDP adoption indicate a land supply of less than 5 years.
- 3.4 Following the adoption of the LDP these additional sites can now become part of the housing land supply and will feature in the land supply calculations in future Conwy JHLAS reports.

4.0 MONITORING DATA

- 4.1 TAN 1 requires the JHLAS report to provide additional information on the development of land for housing covering the use of previously developed land, the use of sites subject to flood risk constraints and the type of housing being developed (i.e. houses, flats, other). This data is set out below.

Table 4 – Re-use of Previously Developed Land (large sites)

Year	Total Number and Percentage of Homes by Category and Land Type											
	5 Year Supply				3i and 3 ii Categories				Completions
