

# LEARN THROUGH PLAY

## Making music

Just grab some pots, pans and kitchen utensils for this fun (if noisy) activity.

### You'll need:

- Different size pots and pans
- Kitchen utensils such as wooden/ metal spoons

### Method:

- Encourage your child to use different things to bang the pots: metal, plastic, rubber, wood, their hands
- Can they hear how the different utensils make different noises?

# LEARN THROUGH PLAY - Making music

## The benefits of this activity:

- It will help your child to learn about quiet and loud noises, rhythm and tempo
- They can also express themselves creatively

**CAUTION:**  
Supervise your  
child in the  
kitchen!
