

Melted crayon pebbles

You'll need:

- Some crayons in different colours
- Some different size pebbles
- A hairdryer

Method:

- Heat a pebble slightly with a hairdryer
- Check the pebble isn't too hot before giving it to your child
- Let your child colour the pebble with the crayons
- The wax of the crayons will melt as it touches the heated pebble

LEARN THROUGH PLAY - Melted crayon pebbles

The benefits of this activity:

- It will develop your child's motor skills as well as their creativity

CAUTION:

Close supervision is needed with the hairdryer and hot pebbles!
