

# Art Project

Take a look out of the window, what do you see? It may be trees or other houses, but look closely, what shapes can you see? Squares? Circles? What about colours? Are the houses all the same colour? Or does one have a red door and another have a white door? You notice a lot when you look closely. Let's make some fun pictures!

## Picture 1.

Using the window as a frame, can you draw exactly what you see? Like the artists above have done.

You could draw on paper, a cardboard box or even a tablet.

What about colouring? If you don't have crayons, paint or pencils, you could make a collage with things you have at home such as colourful magazines or coloured paper, just remember to look closely at the colours you can see through the window.

## Picture 2.

For your second picture why don't you close your eyes and try to imagine what you would like to see out of the window! Really let your imagination run wild. How about flying people or bright pink clouds? Or maybe you would love to see a tropical beach out of the window?

There are no rules here, just have fun!
